

# Wisconsin Jersey Spring Spectacular Show

**Attn Out of State Exhibitors: Please check the WI DATCP website for new guidelines on animal identification that have gone into effect.**

**Phone: 608-224-4872 Division of Animal Health**

Exhibitors meeting: Friday, April 29 1:30pm Show Arena

Showmanship: 3:00pm Friday, April 29

The WI Jersey Spring Spectacular continues to be a successful event. As in the past, we are asking for your cooperation when stalling your cattle, storing your hay, straw, and show equipment. We are asking that you allow yourself no more than 5 feet per animal entered. This space is to include all storage space and your fitting area.

As each of you know, bedding and manure removal has become an area of concern and increasing expenses for cattle shows. We ask that you do not use excessive bedding when stalling you animals. Please keep all strings, papers, cans, plastic bottles and other trash out of the bedding and manure piles. There will be trashcans available in the barns and around the show areas for our use. Please remember that each exhibitor is asked to pick up the trash in your exhibit area prior to leaving the fairgrounds.

Your cooperation and assistance in these areas is greatly appreciated.

**All registration papers must accompany animal to show, or verification from American Jersey Cattle Association. Tattoo or ear tag must be clearly visible.**

**Junior animals must be shown by owner unless preapproved by show management. Requests for alternate showman must be submitted to show management no later than noon the day before the show.**

If you have questions please call or text Karla at 608-606-1818.

Thank you,  
WI Jersey Spring Spectacular Committee
